CONSUL LEE'S MESSAGE

SOME NICE QUESTIONS INVOLVED

In the Adjustment of the Cases of
the Delgados and Others in

WASHINGTON, June 22.—A day or two at least must elapse before the report which General-General Lee is said to

have been forced Saturday can reach the state department. It is not clear whether the report will come by mail or whether General Lee will avail himself of the services of Internal Revenue Collector Ryan as a messenger, as has been intimated might be the case. As there has been much speculation as to what has called forth this particular report from the Consul General, it can be stated that aside from some brief cablegrams announcing his arrival and the receipt of a letter from the United States, he has heard officially from the Consul General, so that a report from him in the ordinary course of consul routine is not out of the question. Under the instructions are our country's general instructions to consuls to report to the state department any event that might be of interest to our government, it cannot be learned that General Lee was under any instructions to make a report upon the situation as he has viewed lower Cuba. For such information as he has gathered in such a situation as he has been gathered while pent up in Havana and at a distance from the fighting line, the state

of the state department just now, is regarded as improbable that there will be any immediate change of policy towards the general subject of Cuban affairs, particularly as the principal reason in Cuba has operated largely to restrict military operations there.

The department adopted its present policy respecting the Cuban revolution, after giving the matter much thought and reaching the conclusion that events have occurred on the island recently of sufficient importance to warrant a radical departure from the former policy.

General Lee has been in Cuba only a few days, and his views on the military situation are believed to be of great value.

It is believed that the Cuban envoys have arrived at a conclusion as to the status of the revolution which he is willing to risk his reputation; but, however this may be, it is certain that the views of the department will not make a change in its policy without mature consideration.

WASHINGTON, June 22.—The Post to-morrow will say:

A very interesting letter was received yesterday by a relative from General Lee. It was written on the 12th, and deals chiefly with Cuban affairs. The Spanish authorities, the General says, have treated him with great courtesy, and Captain General Weyler has granted every request thus far preferred, even

... anything the General has ever done. As to the insurgents, they practice the same policy. The Government has no necessities come in and go out of the cities and the cities as they will, and believes the native population is in sympathy with them. As to the immunity of the Spanish commander, I have never heard himself in the slightest way. They do not regard the use of modern war nor the usage customary among civilized nations, He is from a quarter there is the testimony concerning the barbarism of the Spanish soldiers. None of evidence I have heard would be beyond belief if I not know it to be so reliable. Violations of women, a plendency of inefficient citizens, and, every form of rapine, have been the order on natives of the island and very little, indeed, to place you under suspicion."

General Les doubts if peace can be made now short of a phase of absolute independence and freedom from Spanish control.

It is not clear whether the report will come by mail or whether General Lee will avail himself of the services of Internal Revenue Collector Adams as a messenger, as has been indicated might be the case. While it is true that consular officers under their general instructions are authorized to report on any important event that might be of interest to our government, it cannot be assumed that General Lee was under any instructions to make a report upon the matter he has just returned Omaha. For all, his report will be the basis of exact accordance with the facts contained, and it is hardly to be supposed the Consul General will go beyond a statement.

It is to be observed in official circles that he will attempt to expunge the policy of the state department as to recognition of belligerency or of independence, which must be decided in Washington in contemplation of a field broader than the mere description of an event related in Cuba. At present, the state department is giving more attention to the grievances of American citizens than to the other subject of the society of interference in the strife between the Cubans and the Cubans, and to this end has been pushing the correspondence with HERNANDEZ Y FIGUEROA minister at Madrid.

His purpose is to prevent, so far as possible, depredations on the property of Americans, and especially the recurrence of such affairs as that of the treatment of the Delgado, father and son, and their servants.

Some nice questions of diplomacy are involved in the adjudgment of these matters, and the Delgado case is a fine one. The whole subject is of course to an American resident in Cuba, can serve his American citizenship when he is practically given up his allegiance to his native or adopted country and

THE TICKET RATIFIED

Enthusiastic Reception of the Names.

FOR MCKINLEY AND HOBART

Speeches by Prominent Republicans. The Protection Issue Paramount to All Others.

From Sunday's Daily. It was a gay, good humored crowd that surged around the approaches to the Grand Central hotel last evening when the hour of eight arrived and the Just orchestra began to play popular tunes opposite the stand erected for the McKinley and Hobart ratification meeting. Needless to say the stand was adorned with the national colors, and with a well executed portrait of McKinley, three-quarter size. The music caused the balconies to be filled, and the crowd listened with delight to a musical potpourri, including airs from the "Milkmaid Girl," until the speakers arrived.

A. L. Hobbs read the call of the meeting, and called on the chairmen to take their seats. He introduced Arthur R. Briggs as chairman. The first prefatory remarks were made and then chairman introduced Dr. Chester Rowell, who, in the course of a brief address, said: "We have assembled tonight to ratify the nomination of McKinley and Hobart. It is a great honor to be able to stand here with a grand history, firm principles and patriotic purpose. We ratify also because, personally, they represent a high type of American citizenship. The work of the recent convention at St. Louis was remarkable. Never before was a platform so tersely stated. Every principle of Republicanism has been outlined with vividness that none can mistake."

The speaker referred to the fact that California has always been a single gold standard country, and passing lightly over the fact that the money plank of the convention has been a disappointment to many of our citizens, he pronounced protection to be the grand issue. He concluded: "We are here to ratify, not to discuss. We are here to pledge our allegiance to our great conservative man, who has been elected president of the United States. We need a great, broad, noble-minded man. Such a man we have in William McKinley." After "The Star Spangled Banner" by the hand Judge Carter was called on to speak, and delivered a most eloquent address. He said that he was of the opinion that the election of McKinley was the greatest event in the history of the nation since the war of 1861-65. Grading Contract Soon to be Let. Rights of Way South of the City.

The time is drawing near when the Valley road will reach Fresno. Work is being pushed, and 450 men and 400 horses are engaged in grading and track laying in Merced and Madera counties, and fifty men are at work building the bridge across the San Joaquin river. All the material for the bridge is on the ground, and the structure will no doubt be completed by the time the tracklayers reach the north bank. At the present rate of progress it will be before many weeks. One crew of graders in Madera county is now within two miles of the river.

The contract for grading from the river to this city probably he let last week, and the work will commence very soon thereafter. Assistant Engineer Bades, accompanied by J. T. Williams of the engineering department, went over the line yesterday between Fresno and Madera counties. The people south of Fresno evidently want the road, and reports from subcommittees on rights of way are more encouraging than they were some time ago.

Honors Very, Very Easy. From the Kern County Californian. Our Democratic friends are making merry over what they are pleased to call the means of crowing the free press. The "Populist" will have to swallow. Don't worry, dear friends. That used to be a circumstance to the one that the golden Cleveland Democrats will have to swallow at Chicago. Honors are very, very easy on the score. It will be a hard dose all around.

Rich Enough for a State. From the Hanford Democrat. Fresno county is a county of natural resources sufficient for a populous state. With a spouting oil well at one extreme and twenty-eight miles of gold diggings at the other, with wheat, grapes, orchards and packing houses galore between, she ought to have—well, a county dividend.

NOT SUFFICIENT SUPPORT. The Fresno County "Populist" May Suspend. From Sunday's Daily. It was rumored on the street yesterday that the Fresno Populist would appear for the last time today. To a reporter the publisher of the paper, W. S. Gill, made the following statement: "We have come to a point where we are forced to discontinue the publication of the Populist, but I trust we may secure the aid of a gentleman who has been contemplating such an attempt, and if so the paper will be continued. As contemplated by us, however, the number to be issued today will be the last, and will be one-half the usual size. The lack of advertising support has been the principal trouble, and the paper has been published at a loss for some time. We have 300 subscribers in Kings county alone, but in this county the bulk of our subscribers are too poor to pay for the paper for more than a short time, and we cannot afford to give it. It is simply a matter that we cannot afford to continue the publication."

PILGRIMS ENTERTAINED.

They Spend a Pleasant Evening With Mr. Collier.

From Sunday's Daily. A reception was given last evening by J. M. Collier, the secretary of the San Joaquin Electric Company, at his home, to the "pilgrims" of last week's trip to the power house.

Music and cards were indulged in and at 11 o'clock a delicious supper was partaken of. Those present were Judge and Mrs. W. D. Crichon, Mr. and Mrs. Jesse Church, Misses Lucy Kittrell, Adeline Witt, Katie McIntire, Elizabeth Thorne and Gessie McIntire, Harry Skinner, Lloyd Moultrie and Page Minor.

WHERE IS DUNHAM? Fresno People Who Fancied They Saw Him.

Fresno has its share of Dunham reports, and judging from the amount of energy called into action, the San Jose murderer ought to have been captured in this county long since. Only a few days ago Deputy Sheriff McKinley abandoned in the mountains east of San Jose, the man who had been reported to have been seen in the mountains east of San Jose. He immediately notified the sheriff's office and the two above named officers were sent.

They found an old tramp who was all of fifty summers. He was beggine food which he stored in his shirt sleeves. No arrest was made. Afterward Officer McKinley and his partner, following a lead in another part of the city and took him to jail on a charge of vagrancy.

But Sheriff Scott had a much more tangible report of Dunham's presence in the county. A man in a suit and tie, who was running into the office with the very important news that he had seen Dunham on his way to town. He had passed close by him and he was riding a horse buckskin horse which he had stolen from the mountains east of San Jose. It surely was Dunham, he said, because he looked exactly like him.

Deputy Constable Crutcher yesterday received a letter from a man who was stating that Dunham was there. Of course there could be no question about it, and the deputy constable was asked to come and take charge of the dangerous individual.

About two weeks ago the constable Dunham walked down Mariposa street. One report is that he performed the feat in a bold manner, while another has it that he was assisted in woman's clothes. E. J. Jones thought that Dunham looked like him on Front street about eight years ago. Dunham also is said to have worked as a waiter in a Fresno restaurant about the same time. And still, where is Dunham?

HUNTING OUTLAWS.

Officers Return From the Mountains.

JIM HASLIP GIVEN A CHASE

Leverone and Roberts, the Madera Outlaws, Not in Fresno County.

From Sunday's Daily. Hi Rapajole, Constable J. S. Irvine of Sanger, and Deputy John Perry returned on Sunday from Pine Ridge, where they went to look for Leverone and Roberts, the Madera outlaws, and Jim Haslip, the Indian who is wanted in Madera county for murdering an Italian over two years ago. The officers found no trace of Leverone and Roberts, but they kept Haslip dodging pretty lively for three days.

The two Sanger officials had received information that Leverone and Roberts were encamped among some Indians on Pine Ridge, and they determined to ascertain the correctness of the report. They invited Rapajole to go with them, and as that officer desired a week's vacation, he accepted the invitation to do some gun-busting.

On Pine Ridge the officers secured the services of an Indian interpreter. They searched every Indian camp on the ridge, but could find no trace of the two outlaws. The Indians all said that their brethren across the river had told them that they had seen the outlaws on Quaker mountain in Madera county. Becoming satisfied that the outlaws were not in Fresno county the officers turned their attention to Jim Haslip. It is learned that he was stopping at the Big Sandy rancheria where Constable Irvine had once before attempted to capture him.

In order to avoid detection the officers left their camp about five miles from the rancheria and made a circuitous march on Haslip's abode. They crawled through the thickest brush, and followed the most difficult course to the place, intending to come upon the murderer from a direction least expected.

The officers were considerably chagrined at the turn of affairs after they had taken such precautions to take Haslip by surprise. They were very angry at the turn of events, and they were determined to capture him. They crossed the gulch and went to the rancheria. By this time the boy who had ridden off with Haslip returned with a story that the outlaws had been seen in the mountains east of San Jose. PASSED COUNTERFEIT MONEY John Williams Held to Answer for the Offense.

In Commissioner Prince's court yesterday John Williams had a preliminary examination on the charge of passing counterfeit money, knowing it to be such. The evidence seemed to be conclusive against him, and he made no defense.

He passed a \$10 bill on a Chinaman and received \$3 in change. Williams procured the spurious bill from W. L. Collins, who had been exhibiting it as a curio. Williams said he wanted it for the same purpose, and offered \$1.50 for it. He was taken to the court and held to answer on a Chinese.

John Reichen of the Farmer's Bank was a witness, and pronounced the bill a very good imitation of the genuine.
